Seminars by externals (3BL2193)

Filières concernées	Nombre d'heures	Validation	Crédits ECTS
Master en biologie	Séminaire: 1 ph	contrôle continu: 1	3

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

Période d'enseignement:

- Semestre Printemps, Semestre Automne

Equipe enseignante:

Dr. Angela Köhler and Prof. Ted Turlings

Objectifs:

Students will have the opportunity to attend seminars by experts in a broad range of research fields. These experts will be invited by the various research group at the Institute of Biology and each presentation will be of relevance to at least one of these groups. There will be plenty of opportunity for questions and discussion and the students are expected to actively participate.

Contenu:

Seminars (approximately 45 minutes) by invited experts.

Forme de l'évaluation:

Each student is obliged to attend at least 10 seminar per semester. They are expected to ask at least one question during the semester and will have to write a short report (one to two pages) about one of the presentations. Control continue

Documentation:

none

Pré-requis:

A solid background in biology

Forme de l'enseignement:

Seminar attendance
