Experimental parasitology (3BL2205)

Filières concernées	Nombre d'heures	Validation	Crédits ECTS
Master en biologie	Cours: 3 ph	controle continu: 1	3

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

Période d'enseignement:

- Semestre Printemps

Equipe enseignante:

Jacob Koella

Objectifs:

Go through all steps of a scientific project

Contenu:

(i) What is an interesting question, (ii) Design an experiment to answer the question, (iii) Run the experiment, (iv) Analyse the results, (v) Write-up the results as a scientific paper.

Forme de l'évaluation:

Participation in discussing and running project will be evaluated, and the scientific paper will be graded

Forme de l'enseignement:

The projects will be run in groups. However, each student must write his or her own scientific paper. Note that running the experiment will require work outside of the official class hours.
