## Evolutionary ecology (3BL2216)

Filières concernées	Nombre d'heures	Validation	Crédits ECTS
<b>Master en biologie</b>	<b>Cours: 7 dj</b>	<b>contrôle continu:</b>	3

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

### Période d'enseignement:

- Semestre Printemps

### Equipe enseignante:

Prof. Yvonne Willi

### Objectifs:

To execute a small experimental study in the field of climate change research

### Contenu:

The course is split into the following parts:

- Discussion of a research question and the appropriate experimental design
- Measuring of plant functional traits
- Data organization
- Statistical analysis with the program r
- Short presentation

### Forme de l'évaluation:

Oral presentation

### Documentation:

Handouts

### Forme de l'enseignement:

Project course
