Topics in parasitology (3BL2226)

Filières concernées	Nombre d'heures	Validation	Crédits ECTS
Master en biologie	Cours: 3 ph	controle continu: 1	3

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

Période d'enseignement:

- Semestre Printemps

Equipe enseignante:

Jacob Koella

Objectifs:

(i) Increase knowledge of various topics of evolutionary and ecological parasitology; (ii) increase experience in writing critical reviews

Contenu:

- (1) Group work: Groups will write a blog on two or three selected topics, based on a specific paper and including background reading.
- (2) Class discussions: The blogs will be discussed in class
- (3) Individual work: Each student expands one of the other groups' blogs to write a review of the topic

Forme de l'évaluation:

Each aspect (individual review, blog and discussion) will be evaluated and will contribute to the grade

Documentation:

Selected papers will be made available on Claroline
