### Objectifs:

The objective of the seminar is to investigate in detail a specific topic, storytelling, in conversational conversation. At the end of the course, student should know the scientific literature on storytelling and know basic aspects of how to conduct an experimental research project to study social interaction.

### Contenu:

Evolutionary, cultural, cognitive and neurological aspects of storytelling. Rumors and urban legends. Storytelling, organizational culture and leadership.

### Forme de l'évaluation:

Continuous assessment (graded)

In case of a fail, students can take an exam with documentation (2 hours) organised directly with the professor (does not appear in Piedex)

NB : work that is not submitted by the required deadline, without good cause, will not be accepted and will automatically result in a fail for that given assessment.

### Documentation:

A list of readings will be distributed at the beginning of the course

### Pré-requis:

None.

### Forme de l'enseignement:

Lecture, student présentations, discussions, running and analyzing a scientific experiment.
