Stefano Puddu, maître assistant
Institute of Economic Research
Rue A.-L. Breguet 2, CH-2000 NEUCHÂTEL
tel: +41 32 718 1351 - email: stefano.puddu@unine.ch

Objectifs:

The goal of this course is to give a critical view of how the economic policies, which aim is to generate and sustain the economic growth, are implemented.

Contenu:

The goal of the book *One Economics, Many Recipes*, is to provide a critical analysis of the international 'consensus' approach to economic policymaking. Rodrik stresses the fact that there is not only a simple, single recipe for stimulating and maintaining the growth. Moreover, he also claims that neither globalizers nor antiglobalizers have got it right: while economic globalization can be a boon for countries that are trying to dig out of poverty, its success usually requires to follow policies that are oriented to local economic and political realities rather than respecting the obeying rules of the international globalization establishment. Growth and globalization policies are not copy-paste tasks, on the contrary, they have to take into account local features.

Forme de l'évaluation:

Evaluation
January 2016: two hour written exam.

The exams will be closed books.
