Seminar ecology and evolution (3BL2191)

Filières concernées	Nombre d'heures	Validation	Crédits ECTS
Master en biologie	Séminaire: 3 ph	contrôle continu: 1	3

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

Période d'enseignement:

- Semestre Automne

Equipe enseignante:

Profs Redouan Bshary, Betty Benrey, Fabrice Helfenstein, Jacob Koella, Maarten Voordouw and Klaus Zuberbühler

Objectifs:

To confront students with recent research in ecology and evolution in order to stimulate critical discussion. Showing research links between the various research groups involved in the teaching.

Contenu:

8 sessions on selected topics in ecology and evolution that correspond to the research interests of the teachers.

Forme de l'évaluation:

The oral presentation is graded, and each student will have to write a critical essay, being able to chose from a list of topics. Both marks are a form of continuous assessment. The final mark must be at least 4.0. For each exam period, there is a deadline for the submission of the essay: 15.1. for the January/February session, 15.5. for the June session and 15.8. for the August/September session. Failure to submit the essay in time will lead to an 'E' entry (failure) in the system.

Documentation:

The selected pdfs of papers to be presented will be made accessible in the first week of term.

Pré-requis:

Students need to register for the cours.

Forme de l'enseignement:

Short introductions are given by the teacher, followed by student presentations, followed by general discussions.
