EXC Marine biology (3BL2203)

Filières concernées	Nombre d'heures	Validation	Crédits ECTS
Master en biologie	Excursion: 7 j	controle continu: 1	6

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

Période d'enseignement:

- Semestre Printemps

Equipe enseignante:

Redouan Bshary, Sandra Binning, Dominique Roche and Zegni Triki

Objectifs:

The students will get a hands-on introduction to the coral reef ecosystem.

Contenu:

Several introductory lectures by staff on key taxonomic groups and the ecosystem. Student presentation on selected topics including behaviour, systematics and conservation. Small field projects on site. A list of proposed projects is available but student proposals will also be considered.

Forme de l'évaluation:

The student presentation will be marked, as well as a group report on their project in the form of a website. In addition, student performance in the field will be evaluated. All three marks are a form of continuous assessment, i.e. outside the exam period. As the excursion takes place late during spring term, deadline for completion of the website is 15.8. for evaluation in the August/September exam period. Failure to submit in time will lead to an 'E' entry (failure) in the system, and the deadline for submission for the January/February exam period is 15.1.

Documentation:

Relevant ppt will be made accessible on the server, as well as the pdfs of papers presented by students.

Pré-requis:

Students have to be inscribed in the master of Biology at Neuchâtel.

Forme de l'enseignement:

Some teaching, many direct discussions, work in the field.
