### Water supply and water treatment (3GH2178)

Filières concernées	Nombre d'heures	Validation	Crédits ECTS
<b>Master en hydrogéologie et géothermie</b>	<b>Cours: 20 pg</b>	<b>Voir ci-dessous</b>	<b>2</b>

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

#### Période d'enseignement:

- Semestre Printemps

#### Equipe enseignante

Dr. Landon Halloran

#### Contenu

Water supply:  
 Estimating demand,  
 Supply network design, &  
 Development of water resources for water supply.  
 Waste water treatment:  
 Processes used, &  
 Overview of design and operation of wastewater plants

#### Forme de l'évaluation

Written 2h exam during the last course. Second attempt: oral exam, organized by the professor in agreement with the student before the following exam session (not in Pidex).

#### Documentation

Slides on Moodle.

#### Pré-requis

Hydrogeology & hydrology course  
 Aquatic chemistry

#### Forme de l'enseignement

Theory and exercises during the lectures

#### Objectifs d'apprentissage

Au terme de la formation l'étudiant-e doit être capable de :

- Analyse Data
- Interpret Data
- Decide between methods

#### Compétences transférables

- Apply knowledge to new situations
- Decision making
- Communicate in a second language
- Manage priorities
