Directed readings : first steps in natural or social sciences (3CB2001)

Filières concernées	Nombre d'heures	Validation	Crédits ECTS
Master en conservation de la biodiversité	Cours: 28 pg	Voir ci-dessous	3

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

Période d'enseignement:

- Semestre Automne

Equipe enseignante

Prof. Alex Aebi, Instituts de biologie et d'ethnologie
Ass. Louisa Malatesta, Institut d'ethnologie

Contenu

The objective of this course is to guide biologists and social scientist starting their interdisciplinary master in conservation by directing them through appropriate readings and by sharing our own researcher experiences

We aim to understand the epistemology of different disciplines such as biology, social anthropology or agronomy and understand what it means to tackle environmental issues from a disciplinary point of view. Of course, we will try to identify ways of engaging in interdisciplinarity or transdisciplinarity.

Forme de l'évaluation

CA Pass

Modalités de rattrapage

Each group will be evaluated. If a group does not pass the previous continuous evaluation, it will have to provide a written synthesis of the lectures done by the group, to be submitted on the 2nd of June 2025. This document will serve as a base for the group evaluation.

Documentation

Provided during the semester

Pré-requis

None

Forme de l'enseignement

Seminar, discussions (lively!)
