#### Contenu

While providing an overall view of public policy analysis and its economic tenets, the course will focus on analytical tools, in particular Cost-Benefit Analysis. The course will cover the following topics:

- Principles of welfare economics
- Equilibrium, efficiency and equity
- Ethical and economic concepts of policy analysis
- Tools of public policy analysis
- Provision of public goods
- Externalities and other sources of market failure
- Uncertainty and its impacts on policy decisions

#### Forme de l'évaluation

Final grade is based on a 2-hour written during the exam session at the end of the semester. Participation in class discussions and debates is rewarded by a bonus added to the final grade.

With the exception of a simple calculator no documents or connected objects are allowed during the exams. Any violation of these rules will be considered as fraud, leading to the withdrawal of unauthorized items and possibly exam failure.

#### Modalités de rattrapage

2-hour written exam during the exam session, with no bonus

For justified absences in the final exam (in January), the student can request that their bonus be transferred to the following exam session (in August). The request needs to be done at the latest, within 2 weeks after the date of the first exam. All bonuses will expire after the following exam session (August).

With the exception of a simple calculator no documents or connected objects are allowed during the exams. Any violation of these rules will be considered as fraud, leading to the withdrawal of unauthorized items and possibly exam failure.
