Social cognition and development (course) (2LN2220)

| Filières concernées | Nombre d'heures | Validation | Crédits ECTS |
|--------------------------------------|--------------------|----------------------|--------------|
| Master en sciences cognitives | Cours: 2 ph | cont. continu | 5 |

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

Période d'enseignement:

- Semestre Printemps

Equipe enseignante:

Prof. Fabrice Clément

Objectifs:

The aim of this class is to give an overall panorama of the development of social cognition.

Contenu:

In a first part, different "components" of social cognition will be covered: definition of social cognition, theory of mind, naive sociology, and moral. In a second part, we will extend social cognition to cultural influences and describe the different models of transmission: imitation, social referencing, social appraisal, testimony, epidemiology of representations.

Forme de l'évaluation:

Written exam (2 hours; internal evaluation)

Documentation:

None

Pré-requis:

General knowledge of psychology or developmental psychology is not required but recommended.

Forme de l'enseignement:

Lectures (cours ex-cathedra)
