- To develop a bibliography

Contenu:

The point of this colloquium is to help students get a head start on their mémoire projects, notably by helping them with questions of content (how to come up with a research question / idea, how to develop a bibliography, etc) but also of form (how to organize the memoire, how to integrate quotes elegantly, how to vary your style, etc). Emphasis will be placed on new resources such as digital archives and distant-reading tools, but also on more traditional bibliographical resources such as scholarly editions and concordances. Some attention will also be paid to the value of integrating material culture and media into your projects.
