### **Humanitarian hydrogeology (3GH2219)**

Filières concernées	Nombre d'heures	Validation	Crédits ECTS
<b>Master en hydrogéologie et géothermie</b>	<b>Cours: 28 pg</b>	<b>Voir ci-dessous</b>	<b>3</b>

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

#### **Période d'enseignement:**

- Semestre Automne

#### **Equipe enseignante**

This introduction to humanitarian hydrogeology provides an overview of the technical challenges and opportunities of developing hydrogeological resources in the context of humanitarian needs.

The course first covers a range of important hydrogeological aspects in arid and semi-arid regions. In the second part, technical and organisational aspects of developing drinking water supplies for humanitarian needs are discussed with a range of case studies.

#### **Contenu**

Ellen Milnes  
Philip Brunner

#### **Forme de l'évaluation**

CC: A brief open book exam at the end of the module

#### **Modalités de rattrapage**

Organ exam (20 minutes) by the end of the semester

#### **Documentation**

Slides and handouts will be provided during the course

#### **Pré-requis**

Introduction to hydrogeological processes

#### **Forme de l'enseignement**

Some sessions
