### **Design of experiments (3ST2021)**

Filières concernées	Nombre d'heures	Validation	Crédits ECTS
<b>Master en statistique</b>	<b>Cours: 2 ph</b>	<b>Voir ci-dessous</b>	<b>3</b>

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

#### **Période d'enseignement:**

- Semestre Printemps

#### **Equipe enseignante**

Yves Tillé

#### **Contenu**

The objectives of the course of design of experiments are:

- Explain a variation or a dispersion of a response variable in function of several variables (or factors).
- Identify the most important factors.
- Organize experiments under different conditions that affect the variable of interest.
- Optimize the design of experiment in function of the cost and of some measure of efficiency of the design.
- A design of experiments is not an observational study. The experiments are planned and controlled.

#### **Forme de l'évaluation**

2 hours written exam at any exams session

#### **Documentation**

Slides of the course.

#### **Pré-requis**

Advanced regression method, Multivariate analysis

#### **Forme de l'enseignement**

- 3 ECTS credits
- Spring Semester
- Elective course for master in statistics (choose 18/24 ECTS)
