maïke.debus@unine.ch

Contenu

The lecture will provide an overview of the major topics in the field of work psychology:

- Meaning of work and work values
- Research methods in work and organizational psychology
- Job satisfaction and job attitudes
- Work motivation
- Working in teams
- Job analysis
- Work design
- Dirty work
- Organizational socialization
- Cross-cultural issues in work psychology
- Errors and safety at work
- COVID-19, remote work, and the future of work

This course will take place over two semesters and will continue in the spring semester.

Forme de l'évaluation

Written exam (3 hours) containing multiple-choice and open questions upon completion of the second semester. Exam questions will be given in English and French. Students can respond in either English or French.

If students fail, they can repeat the written exam.

Modalités de rattrapage

If students fail, they can repeat the written exam.

Documentation

Conte, J. M., & Landy, F. J. (2018). Work in the 21st century: An introduction to industrial and organizational psychology (6th ed.). Wiley.

Further materials will be directly distributed in class.

Pré-requis

- Bachelor degree in psychology
- Students are expected to take part in classroom discussions. Course language will be English.

Forme de l'enseignement

This lecture will combine input sessions from the professor (ex cathedra) with practical exercises and group discussions.

Objectifs d'apprentissage

- Faculté des sciences
- www.unine.ch/sciences
