### **Course : Social cognition and development (2LN2220)**

Filières concernées	Nombre d'heures	Validation	Crédits ECTS
<b>Master en sciences cognitives</b>	<b>Cours: 2 ph</b>	<b>Voir ci-dessous</b>	<b>6</b>

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

#### **Période d'enseignement:**

- Semestre Printemps

#### **Equipe enseignante**

Prof. Fabrice Clément

#### **Contenu**

By following the life course of an ideal-typical individual, this class will present the different cognitive and affective competencies necessary to become a full member of a community. Many concepts developed in developmental psychology are indeed beneficial to understand better how socialization works: imitation, attachment, pedagogy, affective social learning, etc.

#### **Forme de l'évaluation**

Written exam (2 hours; internal evaluation)

#### **Documentation**

The class will be organized around a dozen of key texts that will be discussed in class. They will be available on the Moodle for that class.

#### **Pré-requis**

General knowledge of psychology or developmental psychology is not required but recommended. The class is open to students who are not registered in the Master of Cognitive Science program but only after a discussion with the professor.

#### **Forme de l'enseignement**

Lectures (cours ex-cathedra)
