Internship (3BL2228)

Filières concernées	Nombre d'heures	Validation	Crédits ECTS
Master en biologie	Stage: 1	Voir ci-dessous	6

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

Période d'enseignement:

- Semestre Printemps, Semestre Automne

Equipe enseignante

Internships can be carried out in any area of biology at private enterprises, businesses, government agencies or non-governmental organisations. Each internship requires a supervisor of the organisation, who will be directly responsible for the internship and who oversees the day-to-day activities. Consult the Moodle page for details. Responsible Professor at the University of Neuchâtel: Sergio Rasmann

Contenu

Internships are best scheduled for July and August, after the exam season. Three (3) ects of internships require a minimum workload of 20 full days or 160 hours in the chosen organisation, followed by a period of two weeks of report writing.

Forme de l'évaluation

The final report will have to be read and evaluated by the internal supervisor of the internship, who will report his/her feedback to the course controller. Evaluation is in the form of continuous assessment on a pass/fail basis. Reassessment following a fail grade will be decided by the course controller.

Documentation

See Moodle entry

Pré-requis

There are no pre-requisite courses.

Forme de l'enseignement

Learning will be on-the-job training in a real life work environment.

Objectifs d'apprentissage

Au terme de la formation l'étudiant-e doit être capable de :

- Practice biological research in a real-world environment
- Transfer theoretical knowledge to real-life problems

Compétences transférables

- Transfer theoretical knowledge to practical problems
