## Qualitative methods (3CB2016)

| Filières concernées                              | Nombre d'heures     | Validation      | Crédits ECTS |
|--------------------------------------------------|---------------------|-----------------|--------------|
| <b>Master en conservation de la biodiversité</b> | <b>Cours: 28 pg</b> | Voir ci-dessous | 3            |

ph=période hebdomadaire, pg=période globale, j=jour, dj=demi-jour, h=heure, min=minute

### Période d'enseignement:

- Semestre Automne

### Equipe enseignante

Prof. Alex Aebi  
Ass. Lena Matasci

### Contenu

Objectives and content

The objective of this course is to guide biologists starting their interdisciplinary master in biodiversity conservation through a common social science research experience.

We aim to define a common problematic, obtain qualitative data and analyse them. In other words, we aim to understand what it means to tackle environmental issues from a socio-anthropological point of view. Of course, we will try to identify ways of engaging in interdisciplinarity or transdisciplinarity.

### Forme de l'évaluation

Evaluation

Continuous assessment.

Students will be evaluated on their active participation to the course on the handed exercises and on the quality of their presentations.

Expectations:

An active participation is required as student will work in group. This course follows an unusual format and therefore requires great amount of autonomy and responsibility from students. Presence is compulsory (apart for obvious reasons such as sicknesses – no need to inform me if you will not be present). Deadlines for group presentations are strict and not negotiable. Courses and meetings begin at 8h15 (sharp!).

### Modalités de rattrapage

Failures and resubmissions. If students fail to fulfil our success criteria, an essay summarizing the exercises provided during the course will be asked. Note that the obtained grade will be inserted in IS-Academia at the following exam session.

### Documentation

Provided during the course

### Pré-requis

None

### Forme de l'enseignement

Course, inverted classes, coaching sessions
